**“WINGS  
WEEKEND”**

**Complete all the requirements  
of the “Wings” program in one  
weekend. (Weather permitting)**

Safety seminars will be conducted at different times on both days to meet the requirement of AC 61-91 as part of the “Pilot Proficiency Award Program.” CFI’s will be available to provide the 3 hours of dual instruction to complete the requirements of the “Wings” program. Pilots that have attended a Safety Seminar within the previous 12 months will meet the qualification for attendance at a Safety Seminar.

PLUS, the Aeromedical Education Division of the FAA Office of Aviation Medicine’s Civil Aeromedical Institute (CAMI) will have their *Virtual Reality Spatial Disorientation Demonstrator* available all weekend. This is your opportunity to experience certain vestibular illusions that occur during IFR conditions. This demonstration is free to all licensed pilots.

**“Don’t Miss This Opportunity to Enhance Your Pilot skills”**
